

TURNTABLE

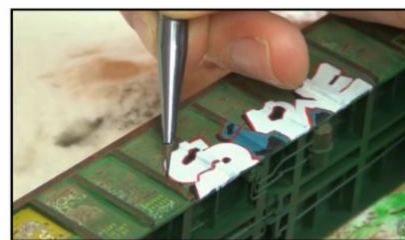

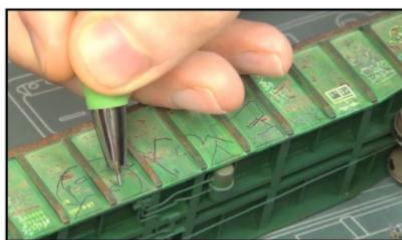

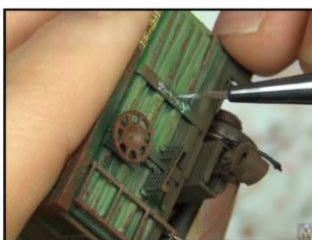

Volume 6, Number 4

April 2022

The NMRA's *Turntable* is a monthly publication that, like a railroad turntable, will lead you in several directions on the internet.

This e-publication is a collection of railroad and model railroad videos, podcasts, websites, and/or other information freely available on the internet that we think may be of interest to you. The NMRA claims no ownership of this information, nor do we endorse its creators or their websites. The *NMRA Turntable* will not promote individuals or their for-profit ventures.

Realistic Gondola Weathering

[Realistic Gondola Weathering](#)

In this video, *Panzermeister36* will show you how to weather a modern HO scale gondola using some very basic effects. He'll look at an acrylic

fade, two-color chipping and wear effects, and using oil paint for dust effects. He also briefly covers the application of graffiti and FRA reflective striping for the modern-day look.

Building a model railroad bridge!

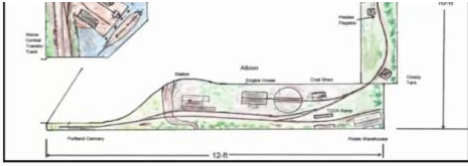

Building a Model Railroad Bridge

In this episode, Jason builds a bridge. He also makes styrofoam look like concrete and he does some scenery work. It's a full episode of tips and techniques.

On30 Wiscasset, Waterville & Farmington Railway

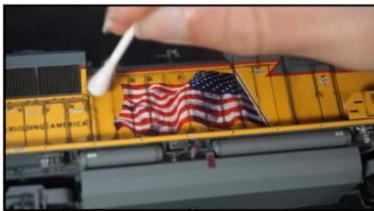

[W, W & F Railway of Pete Leach, MMR®](#)

Marc LaChey of "Narrow Gauge Off the Beaten Path" introduces Lonestar Region member Pete Leach (MMR® #649) who talks about his Wiscasset, Waterville, and Farmington Railway in On30.

Weathering An HO Scale SD70ACe

[Weathering an HO Scale SD70ACe](#)

A detailed weathering project on the Sonoma Custom Models channel. This UP SD70ACe was bought with the intention to weather it and this video shows how it came out. SCM used about every trick in the book from washes to airbrushing to powders to kick up spray.
